

Closure Impact Analysis Report: Ripley

Date of closure: To be confirmed

Background

We continually review our Branch Network to ensure our branches are in the right locations which reflect the long-term changes in the way customers choose to bank with us. Retaining a sustainable Branch Network is extremely important to us and we need to ensure it is fit for the future. Therefore, after careful evaluation, we have made the difficult decision to close this branch with a date to be confirmed.

We are here to support you and there will be plenty of other ways you can continue to do your banking with us. The following summarises some of the information used in reaching our decision as well as how you will be able to continue to access your usual banking services. Here are the details for the nearest alternative branch.

Following the closure, you can use any HSBC UK branch for your day-to-day banking. Our Branch Network comprises three different formats and for more information, and details of the services they offer, please visit our branch finder at [hsbc.co.uk/branch-finder/](https://www.hsbc.co.uk/branch-finder/).

How our closure decision was made

Changes in the way customers are choosing to bank with us has seen the number of customers using HSBC UK branches fall by a third over the past 5 years. Nine in ten customers now transact via Telephone, Internet or Smartphone whilst 99% of cash withdrawals are made at an ATM. In reaching the decision to close this branch we considered:

- the number of personal and business branch users affected
- the number and type of transactions being undertaken by personal and business users
- current alternative channel adoption by customers using this branch
- the number of vulnerable and other branch users who are more dependent on their branch than others (including but not limited to customers that are disabled, elderly, digitally excluded and/or lower income customers)
- the distance to, and accessibility of, alternative banking services

We have referred the closure to the Access to Cash Action Group, an independent body tasked with ensuring long-term cash availability across the UK, and the needs of the local community have been assessed by LINK.

The availability of alternative ways to bank for customers who live locally or travel to use this branch is considered suitable.

How this branch's Personal and Business customers are banking with HSBC UK:

- 94%** of customers who use this branch are registered for telephone banking
 - 36%** of those that are registered for telephone banking are active users
 - 63%** of customers who use this branch are registered for our internet and mobile banking channels
 - 33%** of customers that are registered for Mobile Banking are active users
 - 29%** of customers that are registered for internet banking are active users

 - 12%** of our vulnerable customers who use the branch are active users of telephone banking
 - 5%** of our vulnerable customers who use the branch are active users of internet banking
 - 5%** of our vulnerable customers who use the branch are active users of Mobile banking
 - 16%** of our vulnerable customers do not use alternative banking channels and will be given additional support up to the closure
