

International Payments: How to send money outside the UK

Audio transcript

International payments or sending money outside the UK through a bank, is easy, safe and secure.

There may be fees for sending or receiving money, so you should check these with your provider before committing to the payment.

Money can be transferred using a bank transfer and when you send money for the first time you may be asked to verify your details.

You should always check that the company providing the transfer service is authorised by the Financial Conduct Authority.

You can also check their status on the Financial Services Register, for further peace of mind.
