How our closure decision was made

Over the past 5 years the number of customers using HSBC UK branches has fallen by a third. Nine in ten customers' contact with the bank is now completed via the Telephone, Internet or Smartphone and 99% of cash withdrawals are made at an ATM.

As part of the analysis used to inform our decision to close this branch HSBC UK considered:

- The number of personal and small business branch users affected
- The age profile of branch users (i.e. both older and younger users)
- The number of vulnerable and other branch users who are more dependent on their branch than others (including but not limited to customers that are disabled, elderly, digitally excluded and/or lower income customers)
- The distance to alternative banking services

The availability of alternative ways to bank for customers who live locally or travel to use this branch is considered suitable.
