Wealth management

Managing your wealth for today and tomorrow

Planning a new passion project, your retirement goals or your children's inheritance? Because life never stops, we can provide expert, tailored financial advice on retirement planning, insurance solutions and more.

Your finances are the key to making your dreams happen. Let's unlock both.

Wealth management

Discretionary investment services

| Let us manage your investment portfolio

With our discretionary investment services, we work hard behind the scenes to make your money work for you. Whether you're looking to build a new portfolio or transfer an existing one across, our professional fund managers will take care of the day-to-day management, so you can focus on getting greater returns from life.

The value of investments (and any income received from them) can fall as well as rise, and you may not get back what you invested.

Retirement planning

| Building the future you've always imagined

Whether you dream of relaxing in a luxurious villa overseas or simply want more time to enjoy with the family, we can help you make your retirement plans a reality. Our experts will review and support your needs, whatever your current life stage.

Tailored insurance solutions

| Peace of mind, whatever life brings

We make looking after the people and things that matter easy. As well as access to tailored insurance solutions, if you're a UK resident aged under 80, Worldwide Travel Insurance is provided by Aviva Insurance Limited for you and your family. Terms and conditions apply.

Tax advisory service

| Preferential rates on specialist services

For assistance with your tax affairs, we can refer you to the experts at EY. Whether you're moving to or away from the UK, or have recently sold your business, EY will work with you to provide the most tailored solution. You'll also benefit from a discount on their standard price list.

International services

| Taking you further
