

Postcode Lending Publishable Data - SME borrowing

June 2013 Postcode Sectors

Postcode reporting exercise

Notes for users: December 2013

General

1. These figures form part of a joint data reporting exercise, covering lending to SMEs, residential mortgages and personal loans, coordinated by the British Bankers' Association (BBA) and the Council of Mortgage Lenders (CML).
2. Participating lenders comprise:
 - Barclays Bank
 - Clydesdale Bank & Yorkshire Bank
 - HSBC Bank
 - Lloyds Banking Group
 - Santander UK
 - The Royal Bank of Scotland Group
3. All the figures shown in this Excel file are **aggregate** figures. Participating lenders publish comparable figures for their own businesses separately, accessible via lenders' respective websites.
4. Figures cover **Great Britain only**, and so exclude Northern Ireland and the crown dependencies of Jersey, Guernsey and the Isle of Man.
5. The figures show the sterling equivalent **value of outstanding balances** (in all currencies) that have been advanced to, and drawn down by, borrowers.
6. Figures are reported using the **Royal Mail's sector postcode classification**, as maintained periodically by the Office for National Statistics.
7. Great Britain currently has about 1.8 million full postcodes, 11,000 sector postcodes, 3,000 districts and 120 postal areas.
8. Reporting is restricted to those **sector postcodes which are valid and live**, according to the most recent Royal Mail listing at the time of data reporting by lenders.
9. In order to safeguard **customer confidentiality** and satisfy all relevant data privacy, competition and other laws, the BBA, CML and individual lenders have applied a number of **redaction** filters to the raw lending figures reported by lenders.

These filters/rules are:

 - Borrowing stocks in a sector postcode is not disclosed where customer confidentiality would be compromised (ie where fewer than 10 borrowers exist in the sector or where borrowing is highly concentrated in a small number of the largest borrowers in the sector).
 - Individual lenders are not obliged to publish borrowing at sector level if they hold less than 10% of SME borrowing in a sector.
10. Typically, the total value of lending redacted in this way is relatively small, and spread thinly across a number of sector postcodes. The aggregate figures reported here therefore do not always represent the absolute sum of borrowing from all participating lenders. While this means that **aggregate figures may not be exactly comparable across different sector postcodes**, in most cases the borrowing amounts not included will be fairly small.
11. Wherever possible, any figures for an individual lender which either could not be attributed to a specific sector postcode, or had to be redacted for data privacy or other reasons have been added into the area totals shown. In a small number of instances, we do not attribute specific amounts to postal areas for data privacy reasons. This means that **aggregate figures may not be exactly comparable across different postal areas**.

12. Sector postcodes do not necessarily map across readily or exactly to alternative geographic classifications.

SME specific issues

13. SME lending figures relate to **borrowing through loans and overdrafts ONLY. Other forms of finance (eg business credit cards or asset-based finance) are used by SMEs, but not included here.**
14. SME loans and overdrafts for participating lenders together represent about **60% of the total national market of all lending to SMEs by banks and building societies. Users therefore should take considerable care in interpreting local-level figures, as they will not necessarily be truly representative of the picture of SME finance as a whole.**
